

6. **YOU WILL NEED A DRIVER** the day of your procedure. The driver will need to stay during your procedure. Your Physician will speak to you and your driver between procedures. Because of the medication you may not remember your doctor talking to you. This makes it very important that your driver be present to hear what the doctor has to say.
7. You will be sedated for your procedure and likely to be sleepy. You **MUST NOT DRIVE** (it is illegal and unsafe), operate machinery, use stove/oven, make important decisions, or sign important papers for 24 hours. (We **CANNOT** send you home in a taxi, uber, or any other public transportation.)
